## **Intent**

TAL is committed to eliminating barriers that limit access to information by supporting shared access to collections and information services from members libraries.

## **Principles**

1. TAL members are autonomous and make decisions that align with their internal policies and agreements that they have with other institutions.
2. To the extent allowable by local policies and licenses, TAL members will provide access to information to members of other TAL member libraries.
3. To the extent allowable by local policies, TAL members will provide service to members of other TAL libraries.
4. In accordance with legislation, exchange of user information is limited to that which is required to provide service.
