
Intent

The Alberta Library operates as an integral part of the Alberta library community. At times, TAL's activities intersect with, or are offered in collaboration with those of other groups or organizations within this community. To provide clarity, both for TAL members and for other participants in the library community, the TAL Board will adopt statements that clarify TAL's role.

Policy

1. The CEO will propose statements of principle to the Board when there is a situation arising that has the potential for role ambiguity.
2. After Board approval, these statements will become attachments to this policy.
3. The Board will review statements every two years, or when the situation changes.
4. Statements will clarify boundaries between TAL and other organizations, including, as needed, financial obligations, decision-making, and autonomy.
5. The CEO will share statements with the other organizations involved.
